

Mutual support makes us stronger

under the High Patronage of TRH
the Grand Duke and the Grand Duchess

What is protransplant.lu?

We are a non-profit association founded by organ receivers, in other words people having experienced organ transplantations.

.....

In order to help others in similar life circumstances, we pursue the following **4 objectives**:

.....

› **Promote organ donations**

In some situations, organ donation is the only solution to save a life. For this reason, we are involved in a range of activities to campaign for our cause.

› **Offer mutual aid to organ receivers and patients waiting for an organ transplant**

We have personally lived through the waiting process, the transplantation and the recovery, and are willing to share these moments with you.

In a spirit of support and solidarity, we can provide answers to your questions.

**Regular support meetings,
open to all:**

For details about dates and venues, please check our website or contact us:

info@protransplant.lu
www.protransplant.lu

› **Support and accompany the families**

It is normal for family members of donors, patients or organ receivers to feel worried under these circumstances. We are there to support them and share their concerns.

› **Connect with national and international associations having similar objectives**

We actively seek to establish contact with individuals and organisations, private or public, who are dedicated to the same cause.

Together, we are committed to achieving our common objectives.

Alain Huberty

age 32

It is certainly not easy for a young man to be confronted with life-threatening health issues. A severe kidney failure resulted in 3 years of dialysis during which I seriously declined both physically and mentally. I was obviously thrilled when a compatible donor kidney was found in November 2014. I can now lead a normal life again and actively enjoy sports. I am truly grateful to my donor and his family for offering me a new life.

You can support our cause by making a **donation** or becoming a **member**:

Annual membership fee from 10 €
